

Builders Risk QuickCover

In the fast-paced world of construction, every moment counts. Streamline your submissions with Builders Risk QuickCover—the fastest way to secure builders risk insurance for ground-up new single family home projects with a total completed value up to \$1.5M.*

- **Rapid processing:** Quote, bind and issue policies in minutes
- **Streamlined underwriting:** Only 5 straightforward questions
- **Cost and time efficiency:** Save valuable time and money
- **No delays:** Avoid underwriting holds
- **Exceptional coverage:** Secure builders risk insurance rated A++ by AM Best and AA++ by Standard & Poor's

How does it work?

Available exclusively on Victor's online portal, V², secure builders risk coverage by answering just five questions:

1. Is the home less than 30% complete?
2. Does the project type fall within protection classes 1-7?
3. Does the builder, remodeler, owner or general contractor have at least two years' experience?
4. Has the builder had any builders risk loss in the last three years?
5. Do you want to increase the automatic additional coverages or add any optional coverages?

If your responses meet the eligibility criteria, you'll just need to add basic client and property info, and any additional interests before receiving an instant quote. Then you're all set to issue the policy.

If the risk does not meet Builders Risk QuickCover eligibility, your submission will automatically transition to a standard quote application. That is one less decision you need to make!

For a walkthrough of the Builders Risk QuickCover submission process on V², [check out our demo](#), and for any assistance, email buildersrisk.us@victorinsurance.com.

*modular, mobile or structures within 1000 feet of a coastline are not eligible for Builders Risk QuickCover
